Undisputed master of Arte Povera, Jannis Kounellis is represented by Almine Rech Gallery with Black Rose, an almost abstract canvas representing a black flower on a blank background. A piece to put in line with the famous « unique acts » – a reflection on the process of producing art – the artist has been delivering for fifty years now. The artwork is particularly exceptional since has recently resurfaced at a collector's home after nearly forty years off the radars. [www.alminerech.com](http://www.alminerech.com)
