Tursic & Mille

The Woods

May 6 — Sep 17, 2023 | FRAC Normandie, Caen, France

From May 6 until September 17, 2023 FRAC Normandie will show *The Woods*, a solo exhibition of Tursic & Mille. The artist duo's explosive paintings superimpose images, styles and genres. By transposing photographs of flowers, models and dogs, among other subjects, Ida Tursic and Wilfried Mille transform material from our image saturated world into the traditional domain of painting. The title of the exhibition refers to both the works carved from wood as well as, metaphorically, the forest of signs from which the artists draw inspiration – the images in one's head which form an inner landscape.
